# Endurocide® Antimicrobial Plus Hospital Curtains

Introducing the next generation in disposable curtains: proven to kill the top five pathogen groups found in hospitals, helping to break the chain of infection and reduce the risk of HAIs.

## Features & benefits

- ✓ **Remains active for up to 24 months\***
- ✓ Traps and kills pathogens on contact
- ✓ No track conversion    ✓ No laundering
- ✓ 100% recyclable        ✓ Lightweight
- ✓ Tiebacks and self-auditing privacy labels
- ✓ Fire retardant to international standards

Tested against:†

- ✓ Bacteria
- ✓ Fungi
- ✓ Mycobacteria
- ✓ Spores
- ✓ Viruses

Proven to TRAP & KILL pathogens on the surface of the Curtain – and biocidally active for up to two years!

## INTERNATIONAL PEER REVIEWS

### Two year efficacy

Published in the American Journal of Infection, an evaluation of the bactericidal efficacy of Endurocide® Curtains 24 months after installation in a hospital ward.

### UK NHS Report

Evaluation by an NHS hospital trust in England comparing Endurocide® Curtains against polyester curtains in use across two wards over an eight-week period.

### Hong Kong Joint Study

Independent study by hospitals and government departments compared the bioburden and hanging times of fabric, silver treated and Endurocide® Curtains in use across 10 hospitals.

### COVID-19 testing

Endurocide® Curtains used in an ICU ward in a hospital in South Africa during the Coronavirus pandemic were independently screen tested and found to be free of COVID-19.

## TEST RESULTS

Tested according to international standards CG 147, AATCC 147, AATCC 100, JIS Z 2801 & ISO 20743

Viruses†	Human Coronavirus H1N1 Swine Flu Measles morbillivirus
Spores	<i>C.difficile</i>
Fungi	<i>Aspergillus niger</i> <i>Candida albicans</i> <i>Candida auris</i>
Mycobacteria	<i>Mycobacteria tuberculosis</i>
Bacteria	<i>Acinetobacter baumannii</i> <i>Acinetobacter baumannii</i> (CRA) <i>Acinetobacter baumannii</i> (MDRA) <i>Enterococcus hirae</i> <i>Escherichia coli</i> ESBL <i>Escherichia coli</i> ESBL <i>Klebsiella pneumoniae</i> <i>Klebsiella pneumoniae</i> Methicillin-resistant <i>S.aureus</i> (MRSA) <i>Pseudomonas aeruginosa</i> <i>Salmonella choleraesuis</i> <i>Salmonella typhimurium</i> <i>Staphylococcus aureus</i> Vancomycin-resistant <i>E. faecalis</i>

\* Please see Disclaimer on back page for further information

† Enveloped virus tests carried out on the liquid used to treat the curtains (EN 14476)

# Endurocide® Antimicrobial Plus Printed Curtains

Beautiful patterns to brighten up any ward!

Proven to kill the top four pathogen groups found in hospitals, helping to break the chain of infection and reduce the risk of HAIs.

## Features & benefits

- ✓ Traps and kills pathogens on contact
- ✓ No track conversion      ✓ No laundering
- ✓ 100% recyclable          ✓ Lightweight
- ✓ Tiebacks and self-auditing privacy labels
- ✓ Fire retardant to international standards

Tested against:<sup>†</sup>

# Endurocide® Untreated Disposable Hospital Curtains

The economical alternative to traditional, washable fabric hospital curtains.

## Features & benefits

- ✓ Low cost, hygienic and disposable
- ✓ Designed as short life disposable curtains
- ✓ Ideal for use in both low risk and high patient turnover areas
- ✓ No track conversion    ✓ No laundering
- ✓ 100% recyclable        ✓ Lightweight
- ✓ Tiebacks and self-auditing privacy labels
- ✓ Fire retardant to international standards

Quick & easy way to bring some colour into your ward.

## Standard Options: All Curtain Types

### Types

Types	Use	Drop
• Standard	For use with suspended ceiling rails	2.00m
• Mesh Top	For use with ceiling-fixed rails - with NFPA 13 compliant mesh	2.55m
• Mesh Cut	An economical alternative to Mesh Top curtains	2.55m
• Long Drop	For use with ceiling-fixed rails	2.60m

### Hanging systems

- Eyelet only
- Quick-fit hooks
- Large-top hooks
- Wheeled hooks
- Wide-wheeled hooks
- Metal-bar wide-wheeled hooks
- U-type hooks
- Eyelet extension hooks

### Standard widths

- Full Width 7.5m
- Medium Width 5.55m
- Half Width 3.75m

# Enduro Hand Sanitiser Alcohol free & water based

**Fast acting and quick drying, alcohol free** Enduro Hand Sanitiser is designed for **everyday use – any time, anywhere!**

- ✔ **Doesn't sting or irritate skin** – dermatologically tested and suitable for repeated use
- ✔ **Quick drying** – non-sticky and naturally moisturising
- ✔ **Proven to kill up to 99.9999%** of harmful germs
- ✔ **Long lasting** – tested and proven to remain effective against bacteria for up to four hours after application

✔ **tested & proven to kill**  
**ENVELOPED VIRUSES & SPORES**

Tested against:

- ✔ Bacteria
- ✔ Spores
- ✔ Enveloped viruses
- ✔ Fungi

Zero fire risk and significantly reduces or prevents reddening and drying of skin which can be caused by repetitive use of alcohol based hand sanitisers

## TEST RESULTS

Enveloped viruses*	EN 14476	
Bacteria	EN 1276 EN 13727	EN 14561
Fungi	EN 1650	EN 1275
Spores	EN 13704	

## Other results

- Dermatologically tested: 96 hour skin patch test done on 30 volunteers
- Effective in 30 seconds: Tested and shown to be highly effective against bacteria and enveloped viruses
- Two hour residuality: Tested against bacteria, fungi and spores, and shown to provide up to 99.99% protection two hours after application on surfaces
- Four hour residuality: Tested against bacteria and shown to provide up to 99.8% protection four hours after application on surfaces

\*limited spectrum virucidal activity

## PACK SIZES

Case size NHS Code

• 50ml foam dispenser	12	<b>MTH85036*</b>
• 100ml foam dispenser	20	<b>MTH85033*</b>
• 150ml foam dispenser	20	<b>MTH85034*</b>
• 200ml foam dispenser	16	<b>MTH85035*</b>
• 500ml foam dispenser	12	<b>MRB1150</b>
• 1 Litre refill bottle	12	
• 5 Litre refill container	2/4	

## Wall mounted dispensers

• Manual dispenser (pouch fill)	Individual	
• 800ml pouch for dispenser	12	<b>MTH85038*</b>
• Manual dispenser (reservoir fill)		

**Other pack sizes and dispensers available**

\* Available from NHS Supply Chain as of June 2023

# Enduro Sanitising Wipes Alcohol free & water based

**Fast acting and quick drying, alcohol free**  
Enduro Sanitising Wipes are designed for the everyday cleaning and sanitising of hands, skin and surfaces.

- ✓ **Doesn't sting or irritate skin** – dermatologically tested and suitable for repeated use
- ✓ **Quick drying** – non-sticky and naturally moisturising
- ✓ **Proven to kill up to 99.9999%** of harmful germs
- ✓ **Long lasting** – tested and proven to remain effective against bacteria for up to four hours after application

✓ **tested & proven to kill**  
**ENVELOPED VIRUSES & SPORES**

Tested against:

- ✓ Bacteria
- ✓ Spores
- ✓ Enveloped viruses
- ✓ Fungi

Zero fire risk and significantly reduces or prevents reddening and drying of skin which can be caused by repetitive use of alcohol based wipes

## TEST RESULTS

Enveloped viruses*	EN 14476	
Bacteria	EN 1276 EN 13727	EN 14561
Fungi	EN 1650	EN 1275
Spores	EN 13704	

## Other results

- Dermatologically tested: 96 hour skin patch test done on 30 volunteers
- Effective in 30 seconds: Tested and shown to be highly effective against bacteria and enveloped viruses

## Rapid 6 Foam Sporicidal Disinfectant Foam

Provides fast and effective cleaning and disinfection performance on hard surfaces.

- ✔ Designed to work with existing cleaning practices to provide high grade sporicidal disinfection throughout medical settings.
- ✔ Rapid 6 Foam provides a focused foaming spray which helps users clearly see where the foam is being applied, helping ensure even and consistent surface coverage.
- ✔ Free from Alcohol, Peracetic Acid and Chlorine Dioxide.

✔ **tested & proven to kill  
ENVELOPED VIRUSES  
& SPORES**

Tested against:

- ✔ Spores
- ✔ Bacteria
- ✔ Mycobacteria
- ✔ Viruses\*
- ✔ Fungi

Specially designed to significantly reduce bioburden and micro-organism cross resistance developing by foam application before wiping

## Rapid 6 Wipes Sporicidal Disinfectant Wipes

High performance sporicidal wipes designed for fast and effective cleaning and disinfection performance on hard surfaces.

- ✔ Suitable for use throughout medical settings
- ✔ Wet wipes that are proven to have equal kill rates on both the surface and the wipe itself – important to minimise the possibility of bio-burden transfer within healthcare environments
- ✔ Free from Alcohol, Peracetic Acid and Chlorine Dioxide.

✔ **tested & proven to kill  
ENVELOPED VIRUSES  
& SPORES**

Tested against:

- ✔ Spores
- ✔ Bacteria
- ✔ Mycobacteria
- ✔ Viruses\*
- ✔ Fungi

Designed for High Level sporicidal disinfection – meets International Standard EN 17126 in five minutes under dirty conditions

\* Enveloped viruses only

# AntiBak Tablets Virucidal Disinfectant Tablets

Chlorine free AntiBak Tablets are designed for immediate response infection control.

- ✓ **Kills Norovirus** – log 8 (99.999999%) efficacy in 60 seconds
- ✓ **Kills viruses, fungi and bacteria** – kills Coronavirus in 30 seconds
- ✓ **Small tablet, huge cleaning power** – one tub of 100 tablets provides 50 litres of disinfectant
- ✓ **Reusable trigger spray bottle** – significantly reduces plastic usage as one trigger spray bottle can be used up to 100 times
- ✓ **Food safe** – taint free and suitable for food contact surfaces

Tested against:

- ✓ Viruses
- ✓ Bacteria
- ✓ Fungi

Compact packaging minimises plastic waste & reduces transportation costs

## TEST RESULTS

# Bio Clean Biological Multi-Purpose Surface Cleaner

Bio Clean uses a blend of friendly biological micro-organisms that digest organic debris, such as urine, dirt, oils & greases, at the source.

The unique blend of bacteria in Bio Clean continue to work long after application, meaning the more you use it, the less you need. Ideal for health care environments where urine and odours are a concern, Bio Clean leaves surfaces deep cleaned and with a pleasant, long lasting fragrance.

- ✓ **Biological & bleach free**
- ✓ **Low hazard**
- ✓ **Powerful & effective**

## How to use

- Suitable for use on all surfaces and all areas, including walls, floors and washrooms
- Dilute at 1 part Bio Clean to 1 part water. For best results, dilute with warm water.
- **To clean hard surfaces:** apply liberally to surfaces, wipe and leave to dry naturally.
- **To remove drain line odours:** apply one squirt nightly to the drain line. For stubborn odours, we recommend the use of Bio Drain Fresh.
- **To remove organic stains on carpets and textiles:** wet surface with warm water, apply and leave to dry.

The biological way  
to tackle urine spills, smells  
and stale odours

# Bio TCD Biological Toilet Cleaner

Bio TCD uses a blend of friendly bacteria and enzymes to naturally break down any waste present in the toilet bowl.

The unique blend of biodegradable cleaning agents and scale removing additives digest even the most stubborn of stains, leaving your toilet sparkling clean and with a fresh alpine scent.

- ✓ **Biological & bleach free**
- ✓ **Hazard label free**
- ✓ **pH neutral**
- ✓ **Powerful & effective**
- ✓ **Long lasting**

## How to use

- Bio TCD not only starts working on contact but continues to do so long after application.
- Apply to the bowl and scrub with toilet brush.
- Leave on surface of bowl for as long as possible to allow biological digestion to take place. Ideally apply last thing in the evening or at the end of the working day.

The biological way  
to clean toilet bowls and  
remove stale odours

## Gel Clean Detergent Floor Cleaner

An antimicrobial detergent floor cleaner that leaves your floors not just clean, but sanitised, polished and odour-free.

Part floor cleaner and part sanitiser, Gel Clean combines antimicrobial cleaning and surface polishing agents to leave floors powerfully deep cleaned and gleaming.

- ✓ **Dual action**
- ✓ **Bleach free**
- ✓ **Fresh pine fragrance**

### How to use

- Suitable for use on floor substrates, including linoleum, vinyl, laminates, tiles and varnished wood
- Add 60ml to 5 litres of warm water and stir to dissolve.
- Clean floor, leave to dry then lightly buff to restore sheen.

### PACK SIZES

	Case size	NHS Code
• 1 Litre bottle	12	<b>MFB762</b>
• 5 Litre container	2	
• 5 Litre container	4	<b>MFB763</b>
• 20 Litre container	Individual	

## Sobo Gold General Purpose Detergent

A highly effective, pH neutral detergent degreaser that quickly removes dirt, oil and grease.

- ✓ **Biodegradable**
- ✓ **pH ~9**
- ✓ **Low to medium foamer**

### How to use

- Dilute in warm water and apply by mop and buckets, cloths and spray, floor scrubbing machinery or other equipment.
- Dilute at 4-6% for general use. Maximum dilution: 0.5%.
- Can be used as supplied for heavy duty degreasing.

• 225 wipes refill	240 x 250mm	6

## Spill Magnet Super-Absorbent Spill Powder

Spill Magnet quickly absorbs and retains unpleasant and hazardous liquid spills.

Ideal for use on spills of blood, vomit and urine, Spill Magnet forms a gel which can be easily swept up for safe disposal.

- ✓ **Fast acting**
- ✓ **Non-leaching**
- ✓ **Spill containing**
- ✓ **Chemically neutral**
- ✓ **Absorbs up to 40 times its own weight**

### How to use

- Apply Spill Magnet around and over the spill.
- Allow 2-3 minutes for Spill Magnet to expand into a gel.
- Brush in gently to produce a dry, sweepable material.
- Once removed, clean and disinfect the affected area as appropriate.

### PACK SIZES

### Case size

• 5kg bucket	Individual

# About us

## Our company values are simple:

- ✔ 100% product satisfaction – guaranteed
- ✔ Market-leading products – which are environmentally friendly
- ✔ Products tested and accredited to the highest possible standards
- ✔ World class customer service and distribution

## Our green credentials

Caring for the environment is tightly woven into our DNA.

Not only are our products carefully engineered to be highly effective with minimal impact on the environment, but our operations are monitored to ensure that as a company we are as environmentally friendly as possible.

In 2021 we recycled >95% of our waste. The UK national average was 44%.

The company's premises are heated using a biomass boiler and lit by energy efficient LED lighting.

80% of all our vehicles are fully electric.

We are in Year One of our Carbon Reduction plan involving assessment and information gathering to enable formal carbon reduction goals to be set.
